

# BALANCE DATASLATE

JUNE 2025

However you choose to play Warhammer 40,000, the recommendations in this document are designed to create the most balanced and enjoyable experience for all players, taking into consideration the latest data and feedback from a wide variety of sources. They will be applied in full at all official Games Workshop matched play and Crusade events, and reviewed periodically. **New or revised text is presented in red**, with a text highlight applied to revisions made previously (excluding passages that were added or replaced in full).

## CORE RULES

### Stratagems

Add the following:

### STRATAGEMS THAT ALLOW A CLOSER SET UP RANGE

If a Stratagem has an effect that allows the targeted unit to be set up 'more than 3" horizontally away' from all enemy models/units (e.g. Cosmic Precision, Prognosticated Arrival, Denizens of the Warp, etc.), that part of that effect is changed to say 'more than 6" horizontally away'.

### STRATAGEMS THAT WORSEN ARMOUR PENETRATION

If a Stratagem has an effect that says 'until the end of the phase, each time an attack targets your unit, worsen the Armour Penetration characteristic of that attack by 1' (e.g. Armour of Contempt, Shield of Aversion, Unfailing Obdurate, Reinforced Hive Node, etc.), that effect is changed to say 'until the attacking unit has finished making its attacks, each time an attack targets your unit, worsen the Armour Penetration characteristic of that attack by 1.'

### MODIFYING A STRATAGEM'S CP COST

Rules that enable you to target a unit from your army with a Stratagem for OCP, but that do not specify the name of the Stratagem (e.g. a Captain's Rites of Battle ability), instead reduce the CP cost of that use of that Stratagem by 1CP.

If a model has a rule that would, once per battle, increase the CP cost of an opponent's Stratagem (e.g. a Callidus Assassin's Reign of Confusion ability), that rule is replaced with the following ability:

**'Lord of Deceit (Aura):** Each time your opponent targets a unit from their army with a Stratagem, if that unit is within 12" of this model, increase the cost of that use of that Stratagem by 1CP.'

### STRATAGEMS THAT CAN BE USED MORE THAN ONCE PER PHASE/TURN

Parts of a rule that allow a player to use a Stratagem even if they have already targeted another unit with that Stratagem in the same phase can only be used if the name of the Stratagem is specified in that rule. Similarly, if a Stratagem is limited to one use per player per turn (e.g. Fire Overwatch), per battle round or per battle, such parts of that rule can only be used if the name of the Stratagem is specified in that rule.

**Example:** A Space Marine Captain's Rites of Battle ability reads: 'Once per battle round, one unit from your army with this ability can be targeted with a Stratagem for OCP, even if another unit from your army has already been targeted with that Stratagem this phase.'

As this ability does not specify the name of the Stratagem, the part of this ability that modifies the CP cost of the Stratagem follows the 'Modifying a Stratagem's CP Cost' rules (see above), and the part of this ability that would have let you use the same Stratagem more than once in the same phase cannot be used at all.

Together, these changes mean the effect of the Rites of Battle ability becomes: 'Once per battle round, one unit from your army with this ability can use it when its unit is targeted with a Stratagem. If it does, reduce the CP cost of that use of that Stratagem by 1CP.'

### STRATAGEMS THAT PREVENT UNITS FROM BEING TARGETED

If a Stratagem has an effect that says the target unit 'can only be selected as the target of a ranged attack if the attacking model is within 12"', or 'cannot be targeted by ranged attacks unless the attacking model is within 12"' (e.g. Haloed in Soulfire), that effect is changed to say 'can only be selected as the target of a ranged attack if the attacking model is within 18".'

**Example:** The effect of the Grey Knights Haloed in Soulfire Stratagem becomes: 'Until the start of your next Movement phase, your unit can only be selected as the target of a ranged attack if the attacking model is within 18".'

### STRATAGEMS THAT ADD NEW UNITS TO YOUR ARMY

If a Stratagem has the effect of adding 'a new unit to your army that is identical to your destroyed unit' (e.g. Join the Hunt, Unending Waves, Reinforcements, etc.), add the following Restriction to that Stratagem:

**'RESTRICTIONS:** You can only use this Stratagem once per battle.'

### CULT AMBUSH MARKERS

At the end of the Reinforcements step of your opponent's next Movement phase, for each of your Cult Ambush markers still on the battlefield, you can select one unit from your army that is in Cult Ambush and set up that unit using that Cult Ambush marker. To do so, set that unit up on the battlefield more than 9" horizontally away from all enemy units, with at least one model in that unit touching that Cult Ambush marker and all other models placed wholly within 3" of that Cult Ambush marker (that Cult Ambush marker is then removed from the battlefield).'
